

SAFLOK RT™ Lock

with Messenger™ Wireless
Online Access System

SAFLOK RT™

The contactless SAFLOK RT™ with the optional Messenger™ Wireless Online Access System is tailored to the needs and budgets of limited service properties and is specifically designed to enhance guest experience, increase security, and streamline operations.

The SAFLOK RT™ RFID electronic lock combines the rugged durability of a full-body lock with SAFLOK's highly reliable security features to bring properties safety and convenience in a single source. The RT™ lock is a robust out-of-the-box solution that is compatible with DeskLinc™, as well as System 6000™, which is required for use with the Messenger™ system. Its tamper-resistant design is also ideal for retrofits.

Features and benefits include:

No nonsense mechanics

- Operates with standard radio frequency identification cards or tags (MIFARE ISO 14443A), proprietary keycards not required
- Patented RFID wake-up approach for fast-reading and longer battery-life
- Simple installation, maintenance
- Ideal for retrofit installations, upgrading the property to both RFID and online technologies
- Proven durability

Flexibility

- ASM, ADB, ESM, cylindrical latch, panic bar trim
- Available standalone, Messenger™ ready, or Messenger™ enabled online

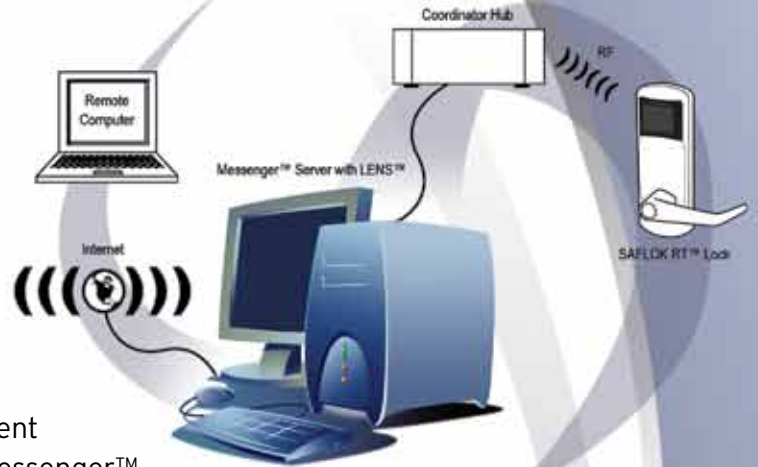

Options

- Levers: Gala, Elevon™
- Ultra finish for ocean front
- High security key override

Messenger™ Wireless Online Access Network

Key features include:

- Radio frequency (RF) communications at 2.4 GHz, which is globally license-free
- Secure networking (128 AES encryption)
- Self-forming networks
- ZigBee Prostack standard

Messenger LENS™

SAFLOK™ has designed Messenger LENS™ (Lock Event Notification System) as an upgrade option for the Messenger™ system. Messenger LENS changes the paradigm of online lock communication by publishing and exporting real-time web-based communication between the lock and the hotel staff. For hotel security personnel and housekeeping or maintenance staff who cannot be anchored, Messenger LENS, allows them the flexibility and agility to attend to their task immediately upon receiving a notification.

Basic Package	Optional Module LENS Advanced Online Security
Security Remote key cancellation Remote lock interrogation Door ajar Remote passage command Remote key usage reports	Notifications/Alerts Wandering/standing intruder SMS, email, pager, workstation
Maintenance/Housekeeping Low battery report Egress/automatic check out Paging keycards	Web-Enabled Interfacing Workflow Management Systems Energy Management Systems
Guest Experience Extend stay Room change	

Messenger™ Benefits

Feature	Advantage	Benefit
VIP guest key first used "Room ready" paging key	Bellhop notified, luggage delivered to room Allows for room assignment	Enhanced guest experience
Low battery alert "Maintenance complete" paging key Staff key used in lock	Maintenance dispatched to replace Room ready for sale Track housekeeping	Enhanced operations
"Wandering intruder" alert Door ajar	Security sent to investigate	Increase security
